Christ-Centered Healing Through Neuroplasticity

GOD'S JUST WINKIN' AT ME

Words by Alison Herron / Music by Sid Herron

VERSE ONE

It took a while to get here.
Lost my way a time or two...
Settin' records for
Repeated scenic routes.
But now that I've arrived,
Yeah, the payoff's evident,
'Cause I've upgraded
My own whereabouts.

Life is goin' my way,
In matters large and small...
Blessings adding up
Both left and right.
Movin' on with trust and purpose,
Transformed by faith and love,
Exchanging darkness
For that promised light.

CHORUS

(And you can call it...)
Quantum quarterbackin'
Law of Attraction action,
Outcomes coincidental,
Or, alignment chain reactions.
Whatever name you give it,
It's mighty plain to see,
When it comes down to it,
God's just winkin' at me.

VERSE TWO

It seems so strange to reckon
The struggle that I had,
When so much that
My heart needed to find
Was right there in plain sight,
In scriptures meant for me;
God's wisdom matched with
The science of the mind.

Harnessing that power,
With intent and gratitude,
Brings clarity and aim
Time after time.
God's will for my future
I welcome cheerfully.
Now my days unfold
In masterful design.

CHORUS

(And you can call it...)
Quantum quarterbackin'
Law of attraction action,
Outcomes coincidental,
Or, alignment chain reactions.
Whatever name you give it,
It's mighty plain to see,
When it comes down to it,
God's just winkin' at me.

BRIDGE

Sometimes stuff'll happen
That defies explanation,
Like prayers that find
Their answers at light speed.
And sometimes stuff'll happen
That stands in confirmation
That God knows as advance
Just what I need.

VERSE THREE

The best part of this setup
Is the way it demonstrates
How lovingly I'm known,
And seen and heard.
The tenderness God shows me
In all He's teaching me
Opens up my heart
To welcome in His word.

VERSE THREE—CONTINUED

Then like that storied engine,
Puffing up the hill,
The path of my momentum
Marks the way
Toward growth & joy & courage;
No matter what befalls,
Leading to that bright
And perfect day.

CHORUS

(And you can call it...)
Quantum quarterbackin'
Law of attraction action,
Outcomes coincidental,
Or, alignment chain reactions.
Whatever name you give it,
It's mighty plain to see,
When it comes down to it,
God's just winkin' at me.

BRIDGE

Sometimes stuff'll happen
That defies explanation,
Like prayers that find
Their answers at light speed.
And sometimes stuff'll happen
That stands in confirmation
That God knows in advance
Just what I need.

REPEAT CHORUS

ABOUT THIS SONG—The more you study neuroscience, the more likely it is you'll run across information and ruminations on the subject of quantum mechanics. It is highly complex... but basically, scientists are now able to study matter at a nanoscopic scale, and what they are learning is somewhat at odds with long-accepted principles of physics. Consider that nanoparticles have been shown to behave differently from one identical experiment to the next, based on variables having to do with who is observing them and how, and **what their expectations are**. It ultimately comes down to matters of probability vs. infinite possibility. The quantum field appears to be a web of measurable energy or light that connects all living things, and it is affected by how we all interact with it and with other living things. This can happen faster than the speed of light, and is influenced greatly by thought and emotion! Some have even defined it as "love" or "compassion." Many see it as evidence of the Law of Attraction... or even... the Light of Christ that illuminates us all. (NOTE: Author **Squire Rushnell** is credited as being the originator of the term "God wink.")

Faith Squared =
FAITH in God multiplied by FAITH in your brain
and its miraculous innate ability to create true
healing and wholeness in body, spirit, mind and heart.

Experts in neuroplasticity compare the limbic system to an alarm system. When activated, it responds by flooding the body with cortisol, norepinephrine, and adrenaline. This better equips us to respond to danger... especially if we need to run away or defend ourselves. But when your brain is overwhelmed by major traumas and/or long-term stress, it may become locked into believing it must work even harder to protect you from danger, even when there is none. This state of over-vigilance—and the continuing flood of agitating chemicals that go with it—can cause a variety of problems. These include mental or emotional illnesses, very real physical symptoms and illnesses, and significant spiritual challenges.

But there is good news! Brains that become wired to over-react to perceived threats CAN be rewired. Properly applied principles of neuroplasticity can turn fear into peace, despair into joy, and illness into health. The other good news is that every science-based tool used in this process is deeply rooted in the basic teachings of the gospel of Jesus Christ.

Our bodies—including our brains—were made in the image of God, with the built-in ability to heal! We just need to learn some specific tools for aligning our thoughts, words, emotions, intentions, and actions with this gift. Combine that alignment with faith in a loving God's desire for our wholeness and happiness... and Christ-centered brain-rewiring is ours.

Be transformed by the renewing of your minds... Romans 12:2

Faith Squared Music is written with the intention of you as a listener learning the songs well enough to sing along, so that your brain hears your own voice repeat these messages. The lyrics are crafted for compassionate self-directed brain-rewiring, delivered through music that we hope and pray just *feels good*. Let it renew and transform not only your mind... but your heart, body and soul.

PROVEN PRINCIPLES OF BRAIN REWIRING — IN HARMONY WITH THE GOSPEL OF JESUS CHRIST
